

The 3rd International Conference and Forum on Assistive Technologies for Special Needs - ATSN'26

Forum: December 13 - 14, 2026
Kuwait College of Sciences and Technology, Kuwait

Conference: December 17 - 18, 2026
Université Evry Paris-Saclay, France (Hybrid Mode)

Call For Papers

The 3rd International Conference and Forum on Assistive Technologies for Special Needs (ATSN'26) focuses on the latest developments in Assistive Technologies empowering people with disabilities. The event provides a vibrant platform for academics practitioners, policymakers, and industry leaders to explore cutting-edge advancements, enhance the exchange of global insights, and promote innovative solutions toward inclusive and accessible technologies.

We invite high-quality and original research papers from academic and industry researchers that propose new methodologies, innovative tools, experimental studies, and practical case studies. Submissions may include empirical research, theoretical studies, technology assessments, state-of-the-art reviews, or reports on real-world implementations.

We particularly encourage submissions from people with disabilities who are conducting studies, research, or developing innovative solutions.

Topics

ATSN'26 encourages contributions across wide range of topics, including but not limited to:

- Innovations in Robotics, Mobility, and Therapy
- E-Accessibility and Inclusive Design
- Artificial Intelligence for Accessibility
- Smart Environments and Emerging Computing
- Open and Inclusive Digital Education
- Advances interfaces and Sensory Augmentation

Submission Guidelines

- Full Papers: 6 to 8 pages
- Short Papers: 4 pages

Paper Formatting and Templates: Submissions must follow the IEEE Conference Template (Word or LaTeX). Manuscripts should be written in English and adhere to the formatting guidelines. Papers exceeding the page limit will be automatically rejected.

Publication and Indexing: Only Full and Short Papers will be submitted for possible publication on IEEE Xplore and must be original and not concurrently submitted to another conference or journal.

Selected papers may be invited for extended versions in special issue of indexed journals. ATSN'26 will recognize excellence in research through the Best Paper Awards, honoring the most outstanding full papers presented at the conference.

Key Dates

2026	5 th Oct	Papers submission deadline
2026	30 th Oct	Notification of Paper Acceptance
2026	15 th Nov	Camera Ready Submission deadline
